- ↓ Reprocessing Instructions Appendices
- ↓ Accessories Reprocessing Instructions
- ↓ Camera Reprocessing Instructions

Intuitive Learning

Visit [Intuitive Learning](#) for the reprocessing courses listed on your learning plan.

After logging in, you will see your learning plan at the top of the page. See your manager if you do not have access to Intuitive Learning.

The following da Vinci SP online courses are available:

- Reprocessing da Vinci SP Endowrist Instruments
- Reprocessing da Vinci SP Camera

For reprocessing related questions, please reach out to your Genesis representative or Reprocessing.Americas@intusurg.com.

Disclosure / Disclosures

Intuitive technology should only be used by physicians and staff who have received specific training in the use of Intuitive technology. Training provided by Intuitive is limited to the use of Intuitive technology, instruments, and accessories. It does not replace the necessary medical training and experience required to perform surgical procedures. Nothing in Intuitive's training curricula makes expressed or implied promises or commitments to the persons attending. This includes NO promise or commitment that the trainee will be provided any specific product or technology in the future or that the trainee will be certified to perform a medical procedure related to the curriculum. Some of the training described in Intuitive promotions may be provided by organizations or entities other than Intuitive. For example, activities that require case history (e.g., videos or observations) may not be immediately available following a new product launch. In those cases, if you wish for additional training, please consult with your hospital and/or work with your Intuitive representative to explore alternative training activities.

For intended use and/or indications for use, risks, cautions, and warnings and full prescribing information, refer to the associated user manual(s) or visit <https://manuals.intuitivesurgical.com/market>.

Intuitive's Privacy Notice is available at www.intuitive.com/privacy.

Refer to the manufacturer's reprocessing instructions for full details regarding cleaning and disinfection of the items listed above.

It is the responsibility of the owner of the Ion endoluminal system to properly train and supervise its personnel to ensure that the Catheter, Vison Probe, and Catheter Guide are properly cleaned, disinfected, and sterilized as required by the reprocessing instructions. The Ion products should not be used in a clinical setting unless the institution has verified that these devices are properly reprocessed in accordance with the Ion system reprocessing instructions.
