

Da Vinci and Ion Training Passport

Supporting physicians
and care teams on a
path to success

INTUITIVE

Physician Training

Supporting physicians on a path to success

The Training Passport Program offers a wide range of training courses for physicians and other medical professionals using Intuitive’s technology. These in-depth educational offerings include programs focused on core technology as well as a progressive physician-led series focused on clinical skill advancement.

Passport Training Program has two objectives

1. Develop a deeper technical knowledge of Intuitive technology through hands-on education with an Intuitive trainer.[†]
2. Apply technical knowledge to specific clinical applications through peer-to-peer interaction, hands-on lab work and other educational opportunities

TR 100* Technology Training

● Develop core da Vinci technical skills through focused instruction by an Intuitive trainer.[†]

TR 200† Technology & Physician-led Procedure Training

● Combine core Intuitive technology training with an introduction to the clinical application of technical skills.[†]

TR 300‡ Physician-led Procedure Training

● Learn how to initially apply Intuitive technology to specific clinical procedures.

TR 400‡ Physician-led Procedure Refinement Training

● Further apply Intuitive technology to the clinical procedures you currently perform with the system.

TR 500‡ Physician-led Masters Training

● Hone your technique while maximizing the application of Intuitive technology to the clinical procedures you currently perform with the system.

Note: Some courses may have prerequisites. Consult with your local Intuitive representative for more details.

* Proctoring and TR 100-500 course offerings vary according to region. For course availability and details on prerequisites, please refer to Intuitive Learning or contact your local Intuitive representative. Proctoring outside of the US is led by marking instead of customer training.

† Technology Training is led by an intuitive Trainer and procedure training is led by an experienced physician within their specialty.

‡ Led by an experienced da Vinci surgeon within their specialty.

Note: Virtual Didactic Training options for TR300-TR500 are available and vary by region. For availability and details, please refer to Intuitive Learning or contact your local Intuitive representative.

Proctoring and remote proctoring‡

Receive one-on-one coaching on best practices from an experienced physician while performing procedures in the operating room using Intuitive technology. Proctoring is available in-person for your first cases and both in-person and remote offerings are available for continued procedure support.

Refresher training

This course is designed to provide hands-on experience to physicians who may have not completed a case over a period of time, who are working on system skills proficiency, are looking to gain confidence on specific technical skills, or are transitioning to a new platform.

‡ Remote Proctoring requires Intuitive's HUB

Care Team Training

Supporting care team members on a path to success

The Training Passport Program offers a wide range of training courses for care team members using Intuitive’s technology. These in-depth educational offerings include programs focused on core technology as well as a progressive physician-led series focused on clinical skill advancement.

Da Vinci care team training pathway[§]

- Technology Training** ● Develop core da Vinci technical skills through focused instruction by an Intuitive trainer.[†]
- Specialty Specific First Assist Training** ● Learn how to apply da Vinci technology to specific clinical procedures.
- dV Coordinator Training** ● Learn more about the coordinator’s role, OR efficiency, tips and techniques, and how to prepare your physicians and teams for success.
- Operational Excellence for Care Teams** ● This virtual course is designed to enhance the operational duties of a Robotic Coordinator by providing an educational learning continuum focused on excellence in driving institutional best practices, staffing strategies, and team training.

Ion care team training pathway^{**}

- Technology Training (TR200 attendance with physician)** ● Combine core Ion technology training with an introduction to the clinical application of technical skills.^{**}
- Ion System Training and Operational Management Course** ● Learn how to initially apply Ion technology to specific clinical procedures.^{††}
- Pathology with Ion** ● Designed for the Ion procedure team to streamline communication with regard to pathology workflow.^{††}

Note: Some courses may have prerequisites. Consult with your local Intuitive representative for more details.

§ Technology training is led by an Intuitive Trainer and procedure/clinical training is led by an experienced physician and/or Health Care Professional within their specialty

** Only available in countries where approved
